WHAT OUR CLIENTS SAY ?

S.Kumar

Delhi (News & Broadcasting)

Our RAID server, OWC ThunderBay Flex 8 72TB 8-Bay, equipped with SSDs and configured in RAID 5, suffered a serious failure, leading to the loss of data necessary for daily operations.

In our initial attempts to retrieve the data, we tried every possible solution, but we were unable to succeed. That's when, through the recommendations of my friend, I turned to Techchef Group of Companies. Through their advanced tools and technology, they successfully recovered the seemingly lost data within just 15 days.

I am very grateful to Mr. Rakesh, Mr. Anish, and his whole team of experts for being our savior in a critical time of need. Thank you, Techchef, for solving the crisis on time.

Lost crucial data after a server failure.
They recovered everything!
Huge relief, business back on track.
Thank you, Techchef!

Group Of Companies

Version: TCF 1.2

"Techchef" is a portmanteau, blending "Tech" and "Chef," symbolizing a fusion of technological expertise with the creative and skillful approach of a chef. This name embodies a company dedicated to crafting and serving innovative solutions in the world of technology.

Much like a chef carefully selects and combines ingredients to create a delightful culinary experience, Techchef curates and integrates cutting-edge technologies to deliver exceptional solutions for its clients. The name conveys a commitment to precision, creativity, and mastery in the constantly changing world of technology.
